National Curriculum Objectives:

English Year 5/6: Understand what they read by summarising the main ideas drawn from more than 1 paragraph, identifying key details that support the main idea

Differentiation:

Beginner Includes 3 different text types (narrative, instructions and report) followed by 2 opportunities to order 4 main events from the text. Aimed at Year 5 Developing. Easy Includes 3 different text types (narrative, instructions and report) followed by 2 opportunities to order 5 main events from the text. Aimed at Year 5 Expected/Year 6 Emerging.

Tricky Includes 4 different text types (narrative, instructions, report and letter) followed by 2 opportunities to order 6 main events from the text. Aimed at Year 5 Greater Depth/Year 6 Developing.

Expert Includes 4 different text types (narrative, instructions, report and letter) followed by 2 opportunities to order 7 main events from the text. Aimed at Year 6 Expected.

A pirate is a person who commits a crime at sea. It may surprise you to know, that pirates have been around for a lot longer than you think. There is evidence of piracy dating as far back as the ancient Greeks. It could also be argued that the Vikings were pirates too. More surprisingly though, is the fact that pirates are still around today, although they dress differently and no longer drink grog or say "arrr"!

Blackbeard is one of the most famous pirates of all time. His real name was Edward Teach and he was born in Bristol, England. As his nickname suggests, Teach had a large black beard that he would twist into sections and tie ribbons around. To make himself look fearsome, he would light fuses and place them on his hat. The resulting smoke and sparks would scare people into giving up their loot.

are finally at an end. Last week, our ship was boarded by the Royal Navy and they discovered the cargo we had stolen several days earlier. A short battle commenced but we were dreadfully outnumbered. Some of the crew were killed as a result. There were too many soldiers; we had to surrender. The rest of the surviving crew and I have been placed under lock and key. The conditions here are appalling. We are given very little food and water and there are too many men in one cell. This makes for a very hot and smelly environment.

Captain Finnigan was a pirate; an exceedingly bad pirate. Relentlessly, he scoured the seven seas in search of treasure to pilfer. Early one morning, through his gold-plated telescope, he spied a splendid looking ship on the horizon. 'Could it be carrying a precious cargo?' he wondered. There was only one way to find out. Immediately, he ordered his crew to man the rigging and they set off in swift pursuit. With the wind in their sails, they made good speed and were soon bearing down upon their prey. Captain Finnigan ordered the men to hoist the Jolly Roger as a sign that they were about to attack; there would be no mercy here. The pirates drew alongside the ship and Captain Finnigan bellowed across, "Give up ye treasure and I might show ya some mercy!" This, of course, was a lie as he was an exceedingly bad pirate after all. There was no reply from the ship. In fact, there was no one there. The ship looked abandoned. Captain Finnigan smiled smugly; taking treasure from this boat would be a piece of cake.

| How to Make a Treasure M |
|--------------------------|
|--------------------------|

Rousing tales of pirates and buried treasure have been told throughout the ages; in reality, it was a rare occurrence and X almost certainly didn't mark the spot. It was more common for pirates to keep their wealth aboard the ship. The majority of their loot was then spent as soon as they returned to port. However, records show that there was one pirate, named Captain William Kidd, who was forced to hide his treasure before being arrested. He had planned to use his vast wealth to bargain his way out of prison. Whilst trying to clear his name, some of his hidden treasure was discovered and confiscated by the authorities. Despite his attempts to buy himself out of prison, Kidd was found guilty of piracy and hanged for his crimes. It is said that people still hunt for his treasure today.

A pirate is defined as a person who commits robbery or criminal violence at sea. It may surprise you to know, that pirates have been around for considerably longer than you think. There is evidence of piracy dating as far back as the ancient Greeks, with Julius Caesar himself having been kidnapped by pirates in 75 BC. It could also be argued that the Vikings were pirates too. More surprisingly though, is the fact that pirates are still around today, although they dress differently and no longer drink grog or say "arrr"!

Blackbeard is probably one of the most notorious pirates of all time. Edward Teach (his real name) was born in Bristol, England in 1680. As his nickname suggests, Teach had a remarkably large black beard that he would twist into sections and tie ribbons around. He was a feared pirate and to make himself look even more fearsome, he would light fuses and place them on his hat. The resulting smoke and sparks would scare people into giving up their loot. This meant that, very often, he didn't even have to fight in order to win his ill-gotten gains. Blackbeard was killed in an epic sword fight with a naval officer in 1718.

| Dear | М | artha | |

Unfortunately, I'm having to write to you with dire news. It appears that my pirate days are finally at an end. Last week, our ship was boarded by the Royal Navy and they discovered the cargo we had stolen several days earlier. A short, fierce battle commenced but we were dreadfully outnumbered. Several of the crew were killed as a result. There were too many soldiers; we had to surrender. The rest of the surviving crew and I have been placed under lock and key. The conditions here are inexcusable. We are given very little food and water and there are far too many men in one cell. This makes for a very hot and smelly environment. Respite is impossible as there is insufficient space on the floor on which to recline.
